# FOCIS SERVICES

## WHAT IS FOCIS?

FOCIS is a 30 day program designed to provide brief intensive case management, mental health therapy, 12 hours per week of therapeutic aid services, 24-hour crisis on-call support, care coordination, and connection to resources for children and families in crisis.

## WHO BENEFITS FROM FOCIS?

FOCIS serves children 18 and younger and their families in the midst of a mental and behavioral health crisis. Alongside the child's intensive case management, participating families have access to up to 15 hours per week of in-home and community services.

## HOW DO I ACCESS SERVICES?

FOCIS is an ancillary service to mental health counseling, meaning that prospective clients must be referred by a therapist they are actively working with. Children could be referred by a school therapist or a therapist at LCSNW or another local organization.
