

Later in Life and Vulnerable Adult Abuse

If you are later in life or consider yourself vulnerable, you have the right to feel safe. Abuse can include intentional or unintentional acts that cause physical, emotional, mental, sexual and/or financial harm or fear. It can happen to anyone. Please call us if you have concerns.

Our Washington State Certified Victim Advocates provide free and confidential advocacy services to victims, survivors, loved ones and witnesses of traumatic events. As Community Based Victim Advocates, we empower victims, and we have privileged communication with survivors as outlined by RCW 5.60.060(7)(b).
